FOREWORD

The St. Stanislaus College Association's Magazine which is published annually is a publication of which members of the Association should be rightly proud. This year's issue will be at least up to the standard of past numbers, and both sections (the Association and the College) ,should be of interest to all its readers.

The Association, although in my opinion a young one, can boast a good membership, but its number should grow more rapidly as several boys leave the College every year, who should support the Association and further the fathers or male guardians (as the case may be) of all students past and present are eligible for membership.

Much more good could be done by the Association with an increased membership and I entreat all those fathers and guardians who are not yet members to join forces with those on the roll at present, and to take an active part in the Association's affairs, for the good of their children and mine.

There is an off-shoot of the Association which bears the title "The College Aid Committee ". Little is ever said about this Committee's activities, but it is a very important branch of the Association, and its interest is the finances of the College. It is here that great good may come of a substantially increased membership. Please do not misunderstand the foregoing to mean that you will have to "put your hands in your pockets." What I mean to convey to readers is that with a substantial increase of *active* members greater efforts will, in time earn greater benefits for the College, ensuring a financial stability which will leave the Principal and the other Jesuit Fathers free to carry on the instructions you and I look forward to for our sons.

The two Social Activities held earlier in the year have been unqualified successes, and there remains the Annual Dinner which has been fixed for the 10th November, and this also should be well attended.

The College and its grounds have been the scene of a few religious ceremonies this year, and I am hopefully 'looking forward to greater blessings in the near future. It was with mixed feelings that I heard the decision that the College will continue on its present site, but I have a sentimental feeling for the said site where I remember the old "Grammar School" was situated before the present College was erected. The College has 'had several blessings bestowed on it since its humble beginning and as there is always a great store of goodness in the Heavenly storehouse, I trust that the Association will be a contributory factor in earning a continuous flow of God's blessing for the College.

EDWARD H. GOMES,
President.

EDITORIAL

Perhaps the most memorable thing about the past year is the number of big Catholic functions which have taken place at the College. The Processions of the Blessed Sacrament for Corpus Christi were made difficult by rain; but the Procession on the Feast of Christ the King shows how ideal the College grounds are. We hope this will become an annual event, not merely a special effort for the Holy Year every quarter of a century.

Then there was the Statue. We had it all for ourselves during the school day of September 15th, and then the Main Street parish carried it away in Procession in the afternoon. Later we were privileged to have Pontifical High Mass with General Communion within the College building on November 1st; the day on which His Holiness defined the Dogma of Our Blessed Lady's Assumption. That same evening there was the final Rally, a sight which will long linger in the memory of those who took part.

The visit of the Statue inspired 3 of the contributions. A photo of our School shrine is published by courtesy of the *Guiana Graphic* who lent us their block. Many of the boys treasure photos of this shrine. Many thanks. Other events are touched upon in the President's "Foreword" and in "The personal Touch." I would like to add a postscript to the Obituary of Mr. C.N. Delphi R.I.P. Mr. Delph had just fulfilled a great desire, a desire shared by countless millions of Catholics throughout the wide world: to make his pilgrimage to Rome during this Holy Year. What a grand preparation for the pilgrimage to heaven on which he was so suddenly invited. Just before he reached his home here on earth in British Guiana, he was called to his eternal home. Mr. Delph has been a staunch helper and prudent adviser to the College and Association; we know he will never cease to be interested in us and he will intercede for us before the throne of God.

Although we have done it personally and privately, it is a pleasure publicly to express our congratulations to Robert Christiani. During the season before he went to England in the West Indies team, he had been helping Fr. Lynch with the coaching of the school cricket. Is it a mere coincidence that after that coaching we did at long last win the Jacob Cup once more? Many thanks, Robert, on behalf of the College and the boys. '

I am very pleased that in his "Foreword" the President urged the appeal for more members of the Association. At this stage I cannot give detailed information about the extension of the College, but it is essential that we should have more classrooms before September 1951. The College is for your sons and brothers and cousins. On you no less than on the masters depends its continued growth and success. I would like to thank all those who have helped with the Magazine, not forgetting those whose efforts were not squeezed in, either because they were not judged to be suitable or because they came too late.

OBITUARY

It is with sincere regret that the Saint Stanislaus College Association's Magazine records the death of Charles Noel Delph, a Vice-President of the Association.

He was elected a member of the Committee soon after its inaugural meeting, to be exact on the 2nd November, 1942 and on the 8th February, 1943 he was elected one of the Vice-Presidents of the Association, to which office he was re-elected every year thereafter, having consistently refused the office of President of the Association and gave as an excuse his business pressure.

He was very highly regarded by the members of the Committee for his sound advice in all matters which were referred to him and was of inestimable value to the Association in other respects.

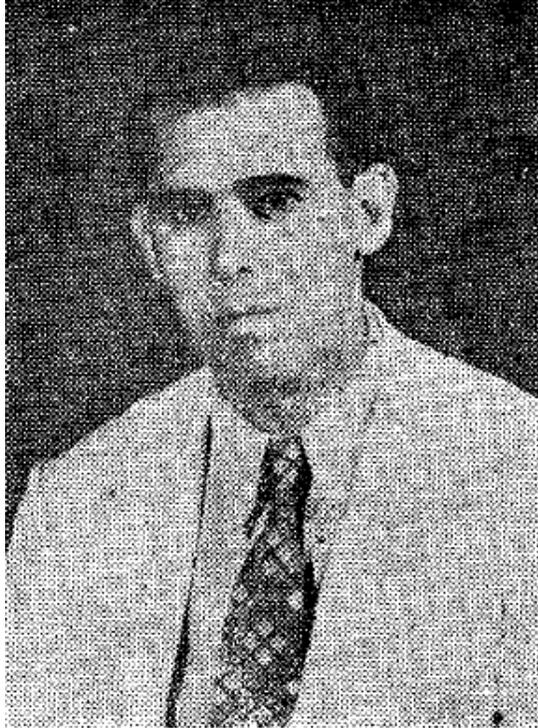

The Association, its magazine, and the College have lost a valuable member and friend whose place it will be awfully difficult to fill. He left British Guiana on the 22nd of June, 1950 together with his wife for a vacation and while on the last leg of the return journey he was seized with a heart attack and died at Port-of-Spain, Trinidad, B.W.I., on the 18th of October, 1950.

His body was brought to British Guiana on the 19th of October, and was entombed in the Catholic section of the Le Repentir cemetery on the 20th of October, after the Rites of the Church were performed at the Sacred Heart Church, Main Street, by Rev. J. Goodwin, S.J.

The Pall Bearers from the Church to the hearse were comprised of Committee Members of the Association.

To his devoted wife and children the Association extends its sympathy in their sad loss.
R.I.P.

Elvas De Souza was the son of Mrs. Luizia De Souza and brother of Rev. Mother Rita, Superior of the St. Bernadette Hostel.

Born on July 1st, 1914, he was educated at St. Stanislaus College and joined the Charlestown Saw Mills in 1933. He was with the firm up to the time of his death. He was married in 1943 to Miss Ena Chatterton.

Popular in sporting circles, Elvas was a member of the Demerara Rowing Club and the Demerara Rugby Union and Football Club. He excelled so much in these forms of outdoor sport that he was selected in the rowing team to represent British Guiana at the last Olympic Games. Unfortunately, financial difficulties subsequently forestalled the entry of the team. In Rugby football he represented the Colony on several occasions at home and in Trinidad between 1935 and 1948. The large attendance at his funeral bore ample testimony to his popularity.

John Joseph D'Andrade, born on 27th December, 1921, met a tragic death by drowning at Clonbrook, E.C. Demerara on 16th July, 1950.

He was the only son of the late Mr. Roque D'Andrade. He attended St. Stanislaus College where he acquitted himself creditably at studies.

In 1940 he joined the staff of the Royal Bank of Canada. While serving at the Dominica Branch of this Bank he resigned from his post to take over his father's business. He was a popular figure in business and social circles and his loss is deeply felt by those who knew him.

We regret to record the passing of a good friend, Mr. Albert Edward Stanislaus ("Bertie") Pitt, who died on the 29th of December, 1949, as a result of a fatal accident.

Bertie, an Old Boy of St. Stanislaus College was an extremely popular member of Georgetown's younger set and enjoyed a wide circle of friends encompassing every section of the community. He was regarded as one of the up and coming tennis players of the Colony and played for both the G.C.C. and the Corinthians.

During the war he served in the Civilian section of the British Routing Office (Royal Navy Shore Station) then later appointed to the staff of the Governor's office. In 1949 he joined the firm of T. Geddes Grant Ltd., as a salesman. His tragic demise at 29, in the prime of life, has been most deeply felt by all.

**REPORT OF THE COMMITTEE OF MANAGEMENT OF THE ST.
STANISLAUS COLLEGE ASSOCIATION FOR: THE PERIOD
JANUARY 1ST TO 31ST DECEMBER, 1949**

MEMBERSHIP: At the close of the year the total membership was 215 comprising 4 Life Members, 171 Ordinary Members, 24 Honorary Members and 16 Associate Members. This represents an increase in Membership of 2 over the previous year.

COLLEGE DEFICIT: The deficit of 1947 and 1948 which amounted to \$2,908.30 were liquidated by Wonderland. The net amount realised from this Fair was \$5,022.43. The College deficit for 1949 amounts to \$2,468.14 made up as follows:-

Working Deficit	\$1,239.14	Balance at credit of College Fund is	\$1,616.61
Bonus to lay staff	\$1,229.00		
Total	\$2,468.14		

ST. STANISLAUS MAGAZINE: The 1949 number made its appearance according to plan on the night of the Annual Dinner. The Editor carried out his task with the quiet efficiency which is characteristic of him and the magazine reflected the care and industry which had been put into its preparation.

ACTIVITIES SUB-COMMITTEE: Three main events were held during the course of the year. The first was a social, held on April 29th, which proved to be an outstanding success, this was due in no small way to a sketch presented by the Literary and Debating group.

The next event was the joint Social and Dance held at St. Joseph's High School Hall on 30th July. It is with regret that we have to state that this affair was not as well supported as on the previous occasion. Perhaps there were too many counter-attractions on the same evening. In any case it is hoped that the next one will receive the support necessary to warrant the continuing of this annual feature.

The main event of the year was the Annual Dinner held at the Catholic Guild Club 11th November. The dinner was as usual well attended, covers being laid for about 140.

LITERARY AND DEBATING GROUP: There were many meetings of this group held during the course of the year. These meetings were not as well attended as they should be. It is hoped that there will be a marked increase in attendance during 1950.

GENERAL: The year 1949 was a fairly good one for the Association. The Committee would like to see more interest being taken in the affairs of the Association, as the present tendency is to leave nearly all the administration work to a "seasoned few." Younger members especially are asked to pull their weight, for they are the future nucleus of the Association. If they should fail the Association also would fail.

It is with regret that we bid farewell to Father F. J. Smith, S.J., who has left the service of the College, but we bid a warm welcome to Fr. B. Scannell, S.J., his successor who, we feel sure, will carry on the good work. A token gift was given to Fr. F. J. Smith, S.J., on behalf of the members of the Association. We are happy to report that the College pavilion has been erected. Unfortunately the weather was inclement so the Fathers versus Sons match has not as yet been played. We are looking forward to this fixture with eager anticipation.

[Top](#)

A PILGRIMAGE TO ROME, EASTER, 1950.

On the morning of April 26th, about a hundred boys from Mount St. Mary's College, set off by train from Victoria Station, London, for Dover.

On arriving at Dover we passed through the customs. and boarded the boat to take us across the Channel to Ostend. The boat was fairly big and had two decks one for first class passengers and the other for third class passengers. There was also a bar at which you could purchase almost anything. We had a very good voyage over and it was 6 p.m. when we landed in Ostend. We passed through the customs and boarded the train for Basle. This was the longest and most tiring ,journey of the whole pilgrimage.

As the train pulled slowly out of the station we began to make the best of the wooden benches which we had to occupy for the whole journey. On the continent the trains mostly have wooden benches with backs, others have leather seats and we were lucky enough to get such trains sometimes. I made myself a bed on the baggage sack but in spite of this I was unable to fall asleep. The train pulled in at Brussels and we got off for a little while to stretch our legs. Around 12 p.m. we stopped at Luxemburg. I again got off the train as it was the last stop until the next morning when we would arrive at Basle.

(Thursday 27th) At 6 a.m. we stopped at Basle and we all went to Mass. Basle was a very lovely place with flowers in bloom all over. After Mass we returned to the station and had our continental breakfast which consisted of bread rolls, jam, butter, and coffee. After breakfast we got on the train and left for Lucerne.

This was one of the nicest journeys of all. As the train speeded on we could see the Alps a long way in front of us and on each side. Soon we began to climb higher and higher and this was done by a series of loops. We then began to come down until we were again on level ground. We then ran along the side of a lake which was so still that it looked like glass and little streams poured into it from the gigantic Alps which stood high above our heads. When we arrived in Lucerne we got on the boat to take us to Brunnen.

The boat was driven by paddles and as the lake was calm it made good progress. There were many little places situated along the lake and Brunnen was one of these. The Alps lay all around it. Then we got off the boat we went to our different hotels and there had the biggest meal since we left England. After our dinner, we began to look around and buy different things. We found that most of the shop people were able to speak a little English.

(Friday) We got up at 6 a.m. and went to Mass, then after breakfast we got on board the train for Rome. This was another long journey; we left at 8 a.m. On the way we went through the famous St. Gothard tunnel which is the largest in the world. We

then arrived at Milan where we stayed for half an hour. We got off the train and went to fill our water bottles. We then left for Rome and arrived there at midnight.

We arrived at a big station which had a huge hall with marble pillars. We were told to take the best of the hall as we were going to be there for about two hours, and this we did. A tennis ball was produced and very soon a game of football was in progress.

At 2 a.m. our buses came and they took us to a camp outside the walls of Rome. The camp was a very large one, consisting of a great number of tents, some containing twenty people and others ten. In the tents there were bunks and some tents had electric lights. A huge wooden building served as a care. In the morning we heard Mass which was said in a tent with an altar. After breakfast the buses came and took us to different hotels in Rome.

(Saturday) After a good dinner at which wine was served we went to look around. I soon found my way to St. Peter's. What a beautiful sight. It is so far beyond explanation that you can only realise the beauty when you are inside. The lovely paintings on the roof and the walls were done by experts.

(Sunday) We went to St. Peter's for all audience with the Holy Father. When we arrived there we walked down the main aisle to our place, which was in a box overlooking the place where the Pope sat. The aisle was lined with the famous Swiss Guards.

The Pope then came through the door and up the aisle; he was carried on the Sedia Gestatoria and was accompanied by the Swiss Guards. The other pilgrims from all over the world shouted and, as he approached us we did not fail to shout "Long Live the Pope." He then addressed the different pilgrims, in French, German, English and Italian. When he had finished he gave us his blessing together with all those who were in the church. He was then borne down the aisle into the Vatican.

For the next few days we visited different places like the Forum, the Capitol, the Vatican Museum. Then the buses took us to Tivoli where we visited the Villa d'Este with its famous garden of fountains.

Tuesday, (May 2nd) We finished our visit to the Basilicas, St. Paul's beyond the walls, St. Mary Major and St. John Lateran. This took most of the day and when we returned home we were very tired so the rest of the day was spent at the hotels.

(May 3rd) This was our last day in Rome, so we made the best of it and went to St. Peter's for another audience with the Pope and to get different things blessed. In the afternoon the buses came to take us to see "Piazza del Popolo", "Piazza Venezia", "Scala Santa", St. Clement's church, the catacomb of St. Callixtus, the tomb of St. Cecilia Palazzi del Cere (a wax-work show of church history).

At 5.45 on Thursday morning we left Rome for Switzerland (Brunnen). We arrived there at 10 p.m. and after supper at our hotel we went to bed. Next morning we heard Mass at the lake-side church. Then different expeditions were arranged some up to Mt. Rigi, some to the great Benedictine Abbey and to the shrine of Our Lady at Einsiedeln, others for a ,trip on the mountain railway and the rest went for walks.

During Saturday similar expeditions took place too, Many of the boys went rowing on the lake and soon there was a large number of boys waiting for boats to come in. It was a lovely day, the Alps were a fine sight; the snow on the tops and sides was shining in the sunlight and their gigantic forms were reflected by the blue waters of the Lake of Lucerne which lay at their feet. The fruit trees were in blossom and the birds were busy building their nests.

After Mass on Sunday we finished our packing and after an early dinner we said a regretful farewell to Brunnen. On arriving at Lucerne we had about 3 hours to ourselves, so some of us went rowing, others went to shop. We then left for Basle where we had a delightful supper. Our train was due to leave at 12.30 a.m. When we boarded the train at that hour of the night everyone was dead tired, but still, most of us found it impossible to get .to sleep. That whole night was spent in talking about things which had happened during the past few days. We arrived at Ostend at 12 p.m. the following day. The boat was waiting to take us back to England. It was not a good day for sight seeing, the clouds were dark and the sun showed no sign of piercing through them. It was very cold and most of the boys covered themselves up with their rugs.

When we arrived at Dover we got on board the train and left for Victoria Station, London. It was raining very heavily when we got to the station and after getting our packed supper from a cafe very near by, we got the bus for Marylebone station. At 3 a.m. we arrived at Elington station which is about 2 miles from the College. We were met by some of the College masters and then we started to walk up the hill to school. We heard mass at 3.30 a.m. in our chapel and so ended a most successful and most interesting pilgrimage; it is something which I can never forget.

RONALD C. OUTRIDGE.

PERSONAL TOUCH

It was that great authority on the game, Neville Cardus, who remarked that "what's bred in the bone will come out at cricket." Much to the delight of the English crowds, and the dismay of his opponents, ROBERT CHRISTIANI has shown the truth of that statement. He has returned home with a truly grand reputation and a really fine cocker spaniel, whose bread's in the bone.

News of the success of SAMUEL BLAIR reached the Colony recently. With an eye for the eye, he graduated from the Northern Illinois College of Optometry. His membership in the Undergraduate Council of Ethics and Professional Advancement at the College is ample proof of his desire to see eye to eye with his clients.

It was also learnt that ARNOLD BAYLEY passed his First Medical Examination at Toronto University with Honours -a sure sign that his knowledge is not merely skin deep.

Soon after CARL DA SILVA received his Bachelor of Science (Engin.) degree from Columbia University, he swore to renounce his bachelorship by becoming engaged to a charming young lady. Now that he has obtained his Master's, it should not be long before he acquires his Mrs. His brother, LIONEL, cares for none of these things. He has entered .a seminary.

The Georgia Institute of Technology recently admitted SIMON LAM as a student. He is studying engineering, The course should be simple, Simon.

It is very interesting, nay, very gratifying to quote how modern man has kept pace with the physical demands made by modern inventions. For instance, his nerves can stand the strain of' meteoric propulsion on a motor-cycle just as easily as his grandfather could tolerate a "bicycle built for two". Though the rolling pin has been superseded by the flying saucer, he has shown himself equal to the task of marriage. The following list of married couples is evidence of this statement :-

WILLIAM CRAIGEN
ANTHONY MENDONCA
JOHN ALFRED McBETH
LUIGI PSAILA
HILARY GONSALVES
ALVARO GOUVEIA
VIVIAN LEE
JOIIN RIX
ANTHONY De SOUZA
PAT BOURNE
HERMAN FARIA
MICKEY Da SILVA

NAOMI FORSHA W
OLIVE CORREIA

MANNIE De SOUZA
EDDIE PIRE,S
RAYMOND Da SILVA

SHEILA ELCOCK
ELINOR COLE
ANITA De BARROS
DOROTHY ECKSTEIN

Some men have shown that they are capable of dealing with feeding-bottles as well as with saucers. They include ANDY CAMACHO, MICHAEL GRANT, GREGORY GONSALVES, JOSEPH FARIA, MIKE De GROOT, CLAUDE VASCONCELLOS, ALBERT IRWIN, CHARLIE JAMES, Dr. CHARLIE ROZA, JOHN GUNBY, CARLTON De SOUZA, STANLEY DEVONISH, REGGIE CHAN-A-SUE, ARTHUR ABRAHAM, JOSEPH S. FARIA, CLEMENT Da S'ILVA, JOHNNIE CHRISTIANI.

Many of our old boys have departed to far away places during the past year. It is not surprising that BUNNY J ARDIM, who has been in close association with "Singers" in Puerto Rico, has gone to the land of the Calypso. Although LINDSAY COLLINS, who is in England, does not show any particular liking for Scotch, he is hoping to be called to the bar. STANLEY FERNANDES, an ex-master of the College. should make a very Civil Engineer after his course in Canada. Also in that country is "BUSTER" CRUM-EWING, who intends to go along the veterinary itinerary. NED McDAVID, a Government Probation Officer, is in England studying the wiles and guiles of perverse youth. CLEMENT SUBRYAN has gone across the seas to Ireland to find out what can best be taken thrice daily after meals. An old boy of the College and a NEWMAN of the West Indian University, DESMOND has sailed on a scholarship. The authorities of the Royal Bank of Canada have seen it fit to withdraw MICHAEL GRANT to Grenada and TONY FLETCHER to Montserrat, and to deposit MANNIE Da SILVA in Dominica and RAYMOND Da SILVA in Jamaica. The Hon. JOHN FERNANDES has gone to New Zealand to represent British Guiana at the Empire Parliamentary Association Conference to be held shortly. A great deal will rest on his broad, square shoulders at that huge round table. Though not out of his depth, MICHAEL ANDREWS is at sea - aboard H.M.S. "Conway."
